EXPERIENCE

Software Developer

IT Strategen GmbH

📅 April 2017 – Ongoing

📍 Karlsruhe, BW, Germany

- Backend development for various web projects (Customer Portal, Webshop, Flight Booking, ...) in a small scrum team.
- Part of a funding project team. Developing a social media application from scratch. The main task is to provide and implement an access control solution based on ABAC and ReBAC for web applications.

Software Developer

iC Consult GmbH

📅 Oct 2016 – Apr 2017

📍 Stuttgart, BW, Germany

- Close collaboration with team members to plan, design and develop a robust API management solution with Apigee for an automotive company.
- Improving scalability for infrastructure and data driven orchestration in a server cluster.

Software Developer & Junior Consultant

Schoeck Bauteile GmbH

📅 Oct 2014 – Sep 2016

📍 Baden-Baden, BW, Germany

- Developed an internal portal for employees containing product search, sales numbers and market analysis.
- Implemented several small applications for the product management and customers.
- Developed a concept to submit ideas for the continuous improvement process.

Internship

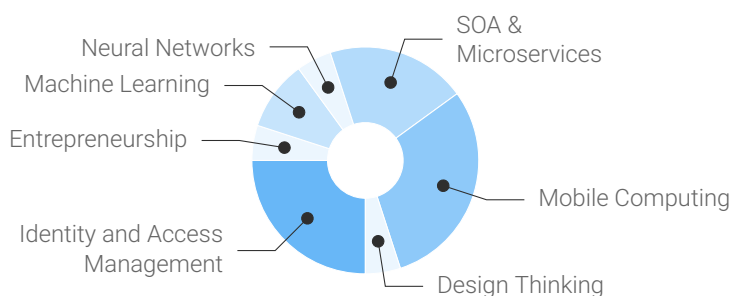

F&P Robotics AG

📅 Feb 2012 – May 2012

📍 Zurich, Switzerland

- Research and software optimization of an industrial robot.

KNOWLEDGE
